(54) Title: VITAMIN D ANALOGUES

(54) Titre: ANALOGUES DE LA VITAMINE D

(57) Abstract

The invention concerns novel bi-aromatic compounds of general formula (I) and the method for preparing them, and their use in pharmaceutical compositions for use in human or veterinary medicine (in dermatology, in cancerology, and in the field of autoimmune diseases and that of organ or tissue transplants in particular), or further still in cosmetic compositions.

(57) Abrégé

L'invention concerne de nouveaux composés bi-aromatiques qui présentent la formule générale (I) ainsi que comme leur méthode de préparation, et leur utilisation dans des compositions pharmaceutiques destinées à un usage en médecine humaine ou vétérinaire (en dermatologie, en cancérologie, ainsi que dans le domaine des maladies auto-immunes et celui des transplantations d'organes ou de tissus notamment), ou bien encore dans des compositions cosmétiques.
