(54) Title: MULTIMEDIA SYSTEM INCORPORATING PORTABLE COMPUTER, TELEVISION, AND CELLULAR PHONE

(57) Abstract: A flat panel multimedia display system (210, figure 1), detachable or non-detachable type, of a multimedia portable computer (60), with a plasma or liquid crystal multimedia display, a multimedia cellular telephone (40) and multimedia receiver system (200) are used to display video and audio multimedia information generated for televisions, digital radio, cellular telephone systems, portable computers, and all other multimedia devices. By connecting the newly invented multimedia receiver system (200) to the display system (210) of the multimedia portable computer system (60), and plasma or liquid crystal multimedia display system, a user can watch television programs, listen to radio, or browse the Internet at any time and at any locations.
