

ABSTRACT

Title of Invention: INTERNAL AIR ADJUSTMENT DEVICE

An internal air adjustment device that includes a gas composition adjustment unit (40, 60) including a gas separation film and that adjusts a composition of internal air existing inside a storage box (1), such as a container, includes a pressure regulating valve (46, 66) that regulates a pressure of air that is supplied from an air pump (36, 37) to the gas separation film of the gas composition adjustment unit (40, 60).
