

Abstract

**COMPUTER IMPLEMENTED SYSTEM FOR GENERATING ASSURANCE
RELATED PLANNING PROCESS AND DOCUMENTS FOR AN ENTITY AND
METHOD THEREOF**

5

Disclosed is a computer implemented system for generating assurance related
planning process and documents for an entity, the system comprises a computer
arrangement having a computing device communicably coupled to plurality of input-
10 and/or output devices to acquire inputs and source data of the entity from a user and a
server arrangement communicably coupled to the computer arrangement, wherein the
server arrangement comprises at least one processing unit, and at least one memory
unit configured to store plurality of processing instruction. Another aspect of the
present invention discloses a method for generating an audit report assurance related
15 planning process and documents for an entity.
