HR, HU, ID, IL, IN, IR, IS, JO, JP, KE, KG, KH, KN, KP,

- (54) **Title: DISPOSABLE ABSORBENT ARTICLE**

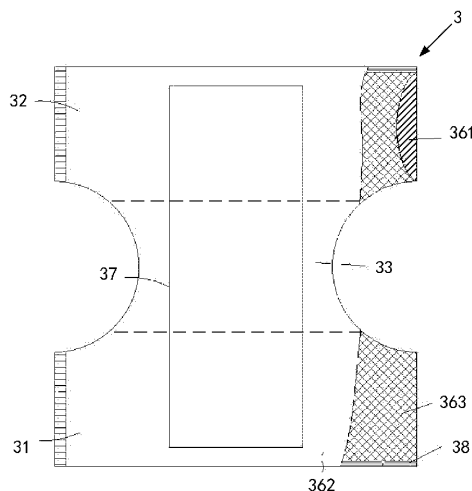

FIG. 5

- (57) **Abstract:** A disposable absorbent article (1) comprises a front waistline region (11), a rear waist region (12) and a crotch region (13) therebetween, wherein two sides (111) of the front waistline region (11) are respectively connected to two sides (121) of the rear waist region (12) to form a waistline opening (14), and two sides of the crotch region (13) extend to the front waistline region (11) and the rear waist region (12) respectively to form a pair of thigh openings (15). The front waistline region (11) and/or the rear waist region (12) are/is provided with at least one extensible region configured as a multilayer composite structure which is elastically extensible along at least a lateral direction. The multilayer composite structure comprises at least one high molecular polymer elastic film (163) compounded with at least one nonwoven fabric layer (161, 162), and at least one layer of the multilayer composite structure is provided with a plurality of air-through holes. The waistline region of the multilayer composite structure has uniform elasticity, good extensibility and compactness, comfortable wear and good breathability.
