(54) Title: IMPLANTABLE DRUG DELIVERY COMPOSITIONS AND METHODS OF USE THEREOF

FIG. 1

(57) Abstract: Provided herein are im-
plantable compositions and methods of
use thereof comprising a matrix together
with at least one polymer and a therapeu-
tically active agent. The use of these im-
plantable compositions is for the local de-
livery of therapeutically active agents to
treat, ameliorate, or prevent the recurrence
of a disease. Technical advantages include
increased drug therapeutic index, low sys-
temic release, no adverse effects on post-
surgery healing, compliance and non-erod-
ing, high-tolerance, easy to use in the
standard of care surgery, and easily adapt-
able to embrace a vast range of therapeutic
agents and procedures.
