SPIRITUAL QUOTIENT PLATFORM AND METHOD THEREFOR

ABSTRACT

The present invention provides a learning management platform for facilitating interactions between users for establishing a learning journey of discipleship of the users. The learning management platform comprises a journey manager for tracking, monitoring, prompting users' progress of the learning journey; a user manager for categorizing and managing the users' progress and privilege levels in a hierarchy of layers, wherein a new user account is created by a user of a higher hierarchy layer; a content manager managing learning materials for the learning journey based on privilege level of the respective users' progress, wherein the privilege level of the respective user is granted based on the users' progress on their respective learning journey or by another associated user of a higher hierarchy layer. The learning management platform comprising the journey manager, user manager, content manager in conjunction with notifications, prompts, and triggers promote the habit building and discipleship learning of a user based on users' progress and privilege level. A method of facilitating interactions between users for establishing a learning journey of discipleship is also provided.
