(54) Title: ULTRAMILD AQUEOUS CLEANSING COMPOSITIONS ☒ (57) Abstract Compositions useful as 2-in-1 cleansing products are disclosed that are extremely mild to skin and hair, which use neutralized, essentially chargeless, ionic complexes of fatty amines and fatty acids to deliver various levels of conditioning; neutralized, essentially chargeless, ionic complexes of a deterative surfactant comprising a water soluble cationic surfactant and/or polymer complexed with one or more anionic surfactants; or an amphoteric surfactant complexed with one or more anionic surfactants; or a water soluble cationic surfactant and/or polymer complexed with one or more amphoteric surfactants; or a water soluble cationic surfactant and/or polymer complexed with one or more anionic surfactants and an amphoteric surfactant; deterative surfactant-soluble but water-insoluble silicones or derivatives thereof; and water. These products exhibit true 2-in-1 conditioning properties, and are lower in cost than current 2-in-1 products. Clear or opacified products can be formulated.
