

A cross-sectional view of a substrate assembly 40. It consists of a top layer 40 and a bottom layer 42. The top layer 40 is hatched with diagonal lines. The bottom layer 42 is a solid white rectangle. The two layers are joined at their interfaces. The assembly is shown with break lines (zig-zags) on the left and right sides, indicating it is a partial view.

A cross-sectional view of a substrate assembly 400. It consists of a top layer 42 with diagonal hatching, a middle layer 44 with a cross-hatch pattern, and a bottom layer 40 with diagonal hatching. The layers are separated by thin interfaces. The assembly is shown with break lines on the left and right sides, indicating it is a partial view.
