(54) Title: A MOLDED ROTATABLE BASE FOR A POROUS PAD

(57) Abstract: A rotatable base (100) for a porous pad (500) has openings (126, 130, 134) that provide for improved flow distribution of a liquid in the base (100) across a substrate. The rotatable base (100) can be molded from a two piece mold and the openings (126, 130, 134) can have draft angles to facilitate the molding process.
