

SYSTEMS AND METHODS FOR MOBILE AUTOMATED MASS RELEASE OF INSECTS

Abstract

Systems and methods for automated release of insects are disclosed. In one embodiment, a system includes: an insect storage device defining one or more internal compartments to store a population of insects; a loading mechanism for loading the insect storage device with a population of insects; and an insect release device coupled to the loading mechanism and configured to release into an environment one or more insects from the population of insects in the insect storage device.
