(54) Title: METHODS FOR CULTURING CELLS EXPRESSING ROR1-BINDING PROTEIN

(57) Abstract: Disclosed herein are methods of culturing immune cells in a medium comprising at least about 5 mM potassium ion, wherein the medium is capable of increasing the stemness of the immune cells. In some aspects, the immune cells which are cultured using the methods provided herein are modified to express a ROR1-binding protein and have increased level of c-Jun protein. In some aspects, the immune cells are administered to a subject in need thereof.
