(54) Title: SYSTEM AND METHOD FOR INTEGRATING AN ADDRESS BOOK WITH AN INSTANT MESSAGING APPLI-
CATION IN A MOBILE STATION

(57) Abstract: A system for integrating an address book application with an instant messaging application in a mobile station is provided. An instant messaging database may be used to store instant messaging data, the instant messaging data including instant messaging contacts and instant messaging (IM) presence information to indicate whether the instant messaging contacts may currently be accessed by the instant messaging application. An address book database may be used for storing address book data. An aggregated data viewer may be used to relate instant messaging data from the instant messaging database with address book data from the address book database.
