(54) Title: A NETWORK AND METHOD FOR SHARING RADIO ACCESS NODES BETWEEN CORE NETWORKS

(57) Abstract: The invention concerns a method for radio communication in a cellular radio network having a radio access network and a core network (CN), the method comprising connecting at least two different core networks to one radio access network (RAN), and sharing at least one network element (RNC, BTS) of the radio access network (RAN) between the at least two different core networks.
