

BALLISTIC LAYER AND BALLISTIC MULTILAYER ARRANGEMENT

5

ABSTRACT

The invention relates to a ballistic layer for a ballistic
multilayer arrangement (1), wherein it is formed by an
10 absorption layer (2, 2a, 2b) that entirely or largely
comprises expanded glass (21) and by a ballistic
multilayer arrangement (1) with an impact side (A) and a
back side (B), wherein at least one of the layers is
formed by such an absorption layer (2, 2a, 2b) that
15 entirely or largely comprises expanded glass (21).
