

METHOD, APPARATUS, AND SYSTEM FOR CHANGING ASSOCIATION RELATIONSHIP BETWEEN MCPTT USER AND MCPTT GROUP

ABSTRACT

Embodiments of the present invention provide a method, an apparatus, and a system for
5 changing an association relationship between an MCPTT user and an MCPTT group. A method for
changing an association relationship between an MCPTT user and an MCPTT group includes:
receiving, by a first network element device, an association change request sent by first user
equipment UE, where the association change request includes request information, the request
information is used to indicate that a first mission critical push to talk MCPTT user requests to
10 change an association relationship between a second MCPTT user and a first MCPTT group, and
the first MCPTT user is an MCPTT user using the first UE; and setting, by the first network element
device, the association relationship between the second MCPTT user and the first MCPTT group
according to the association change request. The present invention implements that an MCPTT user
changes an association relationship between another MCPTT user and a group.
