(54) Title: OVERCOATED POWDER PARTICLES

FIG. 1

(57) Abstract: Provided are compositions comprising a collection of overcoated particles wherein each of the overcoated particles comprises a first coating and a second coating. In one embodiment, the first coating comprises water insoluble material, for example a fatty compound or a waxy material. In another embodiment, the second coating comprises a water insoluble polymer or water resistant film, wherein the water insoluble polymer of the second coating is different than the water insoluble material of the first coating. Also provided is a slurry comprising water and overcoated powders provided herein. Also provided is a method of contacting plants or plant parts with a composition or slurry provided herein.
