(54) **Title: VISUAL BLOCKCHAIN BROWSER**

FIG. 4

(57) **Abstract:** A method for providing a visualization of a blockchain associated with a blockchain network is provided. The method includes: Receiving a request for a blockchain visualization user interface from a client device. The blockchain visualization user interface is generated based on the blockchain. The blockchain visualization user interface includes a chain graph structure that visually depicts at least a portion of the blockchain and transaction information for transactions that have occurred in the blockchain network. The blockchain visualization user interface is provided for display on the client device in response to the request for the blockchain visualization user interface.
