Claims:

1. A composition for forming a beverage, the composition comprising a mixture of powder ingredients, the ingredients comprising:

i) soluble coffee;

ii) a non-protein creamer; and

iii) a plant-based powder selected from one or more of oat powder, coconut powder, soy powder and almond powder;

wherein a ratio by weight of the non-protein creamer powder to plant-based powder is at least 3:1; and

wherein the plant-based powder is essentially the sole protein source.

2. The composition according to claim 1 wherein the plant-based powder is an oat powder.

3. The composition according to claim 2, wherein the plant-based powder is an oat flour.

4. The composition according to any preceding claim, wherein the ratio by weight of the non-protein creamer powder to plant-based powder is from 3:1 to 8:1.

5. The composition according to claim 4, wherein the ratio by weight of the non-protein creamer powder to plant-based powder is from 3:1 to 4:1.

6. The composition according to any preceding claim, wherein the ingredients further comprise sugar.

7. The composition according to claim 6, wherein the ingredients comprise by total weight of the ingredients:

from 10 to 15wt% of the soluble coffee; and/or

from 10 to 45wt% of the non-protein creamer; and/or

from 40 to 60wt% of the sugar; and/or

from 1 to 40wt% of the plant-based powder.

8. The composition according to claim 7, wherein the ingredients comprise by total weight of the ingredients from 5-12wt% of the plant-based powder.

9. The composition according to any of the preceding claims, wherein the ingredients further comprise a foam-boosting ingredient comprising at least 1ml/g of trapped gas.

10. The composition according to claim 9, wherein the foam-boosting ingredient is present in an amount of from 1 to 20wt% by total weight of the ingredients.

11. The composition according to any of the preceding claims, wherein the soluble coffee is a spray-dried or freeze-dried coffee powder and, optionally, contains roast and ground coffee particles.

12. The composition according to any of the preceding claims, wherein the non-protein creamer comprises a vegetable oil and one or more ingredients selected from thickeners, acidity regulators, buffering agents, emulsifiers and stabilisers.

13. The composition according to any of the preceding claims, wherein the plant-based powder is at least partially hydrolysed and optionally fully hydrolysed.

14. The composition according to any of the preceding claims, wherein the plant-based powder comprises a mixture of hydrolysed plant-based flour and native plant-based flour.

15. The composition according to claim 14, wherein the plant-based powder is oat flour and wherein a ratio of pre-hydrolysed oat flour to native oat flour is from 5:1 to 3:1.

16. A method of forming the composition according to any of the preceding claims, the method comprising dry-mixing together the powder ingredients.

17. The method according to claim 16, wherein the method further comprises granulating or agglomerating the mixture of powder ingredients.

18. A method of forming a beverage, the method comprising mixing the composition according to any of claims 1 to 15 or with a beverage medium.
