

AFFIXING METHOD AND AFFIXING APPARATUS

ABSTRACT

An affixing method includes a pressing step of pressing a tape against a wafer with a tape affixing roller and pressing the wafer against a suction table with the tape affixing roller, an evacuating step of evacuating a vacuum chamber that houses the suction table and the tape affixing roller therein to create a vacuum in the vacuum chamber, and an affixing step of affixing the tape to the wafer with the tape affixing roller by causing the tape affixing roller to roll on the tape while the tape affixing roller is pressing the wafer.
