

INFORMATION PROCESSING APPARATUS, INFORMATION
PROCESSING METHOD, AND STORAGE MEDIUM

[ABSTRACT]

An information processing apparatus, an information processing method, and a storage medium that can suitably acquire necessary biometrics information based on a user's movement are provided. The information processing apparatus includes: a movement instruction unit that instructs a user about a movement; an information acquisition unit that acquires biometrics information on the user from the user instructed about the movement; and a display control unit that controls display directed to the user in accordance with the movement status of the user.
