

ABSTRACT

The present disclosure relates to a fused ring derivative, a preparation method therefor and a use thereof in medicine. Specifically, the present disclosure relates to a fused ring derivative represented by formula (IA), a preparation method therefor, a pharmaceutical composition containing the derivative and a use thereof as a therapeutic agent, in particular, a use thereof as a CYP11B2 inhibitor and a use thereof in preparation of drugs for treating and/or relieving CYP11B2-mediated diseases. (FIG. 1)
