

1 / 6

**Effect of bis(choline)
tetrathiomolybdate on
endothelial cell proliferation**

Figure 1

2 / 6

caspase 3 activity in huvecs incubated with bis(choline)
tetrathiomolybdate for 72 hours in serum free media with 1ng/mL
bFGF

Figure 2

3 / 6

Figure 3

4 / 6

Effect of copper or bis(choline) tetrathiomolybdate on IL-8 expression of cascade HUVECs in Ultraculture

Figure 4

5 / 6

Effect of bis(choline) tetrathiomolybdate on IL-8
expression by activated Thp-1 cells

Figure 5

6 / 6

Effect of oral bis(choline)
tetrathiomolybdate on plasma levels of
murine KC

Figure 6
