

REMOVER COVER

Abstract

5 A remover cover 1 is detachably attached to an
attraction head 20 equipped at one end of a substantially
rod-shaped remover 2. The attraction head 20 includes a
magnetic force generating surface 201 adapted to generate a
magnetic force. The cover 1 includes a cover body 10
10 shaped like a bag and adapted to cover the remover from a
tip of the attraction head 20 to at least the magnetic
force generating surface 201, and a holding portion 12
installed by extending from an open end 11 of the cover
body 10. The cover body 10 is configured to allow itself
15 to be turned inside out.
