

ABSTRACT

BREAD COMPRISING SACCHARIFIED RICE SOLUTION AND METHOD FOR PREPARING SAME

The present invention relates to a bread comprising a saccharified rice solution and a method for preparing same and, more specifically, to a bread comprising a saccharified rice solution prepared by using *Aspergillus oryzae* koji, *Aspergillus kawachii* koji, and lees and a method for preparing same. According to the present invention, a saccharified rice solution prepared by using *Aspergillus oryzae* koji, *Aspergillus kawachii* koji, and lees is developed, and thus, as compared with an existing saccharified rice solution prepared by using *Aspergillus oryzae* koji or *Aspergillus kawachii* koji, sweetness may be reduced, and the amounts of glutamic acid and aspartic acid may be increased, thus giving further enhanced savory taste. Furthermore, various and rich flavors (aroma) may be enhanced. In addition, by addition of the saccharified rice solution of the present invention, a bread having savory taste and various and rich flavors (aroma) may be prepared.
