(54) Title: VECTOR AND METHODS FOR INTRODUCING AT LEAST TWO GENES INTO A PLANT

(57) Abstract

A vector for introducing a desired gene into a plant, which comprises the desired gene and at least one morphological abnormality induction (MAI) gene as a marker gene, or which comprises the desired gene, at least one MAI gene and a removable element. A method for producing a transgenic plant free from the influence of a marker gene. A method for multitudinously introducing desired genes into one plant.
