(72) Inventors: **RONNE, Jerome**; c/o Unit 220, 13155 Delf Place, Richmond, British Columbia V6V 2A2 (CA). **TSANG, Chi-Kiu**; c/o Unit 220, 13155 Delf Place, Richmond, British Columbia V6V 2A2 (CA). **TANG, Siu Lun Isaac**; c/o Unit 200, 13155 Delf Place, Richmond, British Columbia V6V 2A2 (CA). **LOKHORST, David**; c/o Unit 220, 13155 Delf Place, Richmond, British Columbia V6V 2A2 (CA).

(74) Agent: **RIPLEY, Roch**; Gowling WLG (Canada) LLP, Suite 2300 - 550 Burrard Street, Vancouver, British Columbia V6C 2B5 (CA).

(81) Designated States (unless otherwise indicated, for every kind of national protection available): AE, AG, AL, AM,

(54) Title: OPTICALLY COMMUNICATIVE BATTERY MANAGEMENT SYSTEM

FIG. 2

(57) Abstract: An optically communicative battery management system includes a pack controller and one or more module controllers optically coupled to the pack controller. The module controllers may themselves be optically coupled together in series, and communication from an upstream module controller may be relayed through one or more downstream controllers en route to the pack controller. The pack controller may also send an optical signal that is used by the pack controller to determine whether any one or more of the battery modules is experiencing a safety fault, and the communication channel used to transmit that optical signal may, absent any safety faults, be used to multiplex message data to the module controllers.
