What is claimed is:

1. A cosmetic composition comprising a mixture of a first saccharide-based surfactant having a ~~relatively large~~ first hydrophilic portion and a second saccharide-based surfactant having a ~~relatively small~~ second hydrophilic portion, the first hydrophilic portion of the first saccharide-based surfactant being more hydrophilic than the second hydrophilic portion of the second saccharide-based surfactant; and a natural oil-soluble ingredient,
wherein the composition contains the mixture of the first saccharide-based surfactant and the second saccharide-based surfactant in an amount of 0.20 wt.% to 1.50 wt.% with respect to the total weight of the composition, and contains the natural oil-soluble ingredient in an amount of 5 wt.% to 15 wt.% with respect to the total weight of the composition, and
wherein a weight ratio of the second saccharide-based surfactant to the first saccharide-based surfactant is 0.4 to 2.5:1.

2. The cosmetic composition as claimed in claim 1, wherein the composition is an oil-in-water type composition.

3. The cosmetic composition as claimed in claim 1, wherein the composition has a viscosity of 1,000 to 4,000 cps.

4. The cosmetic composition as claimed in claim 1, wherein first saccharide-based surfactant ~~having a relatively large hydrophilic portion~~ includes at least one selected from the group consisting of polyglyceryl-3-methyl glucose distearate and inulin lauryl carbamate.

5. The cosmetic composition as claimed in claim 1, wherein the second saccharide-based surfactant ~~having a relatively small hydrophilic portion~~ includes at least one selected from the group consisting of sucrose fatty acid ester, cetearyl glucoside, arachidyl glucoside, and C12-20 alkylglucoside.

~~6. The cosmetic composition as claimed in claim 1, wherein the saccharide-based surfactant having a relatively small hydrophilic portion and the saccharide-based surfactant having a relatively large hydrophilic portion are used at a weight ratio of 0.4 to 2.5.~~

~~7. The cosmetic composition as claimed in claim 1, wherein the composition contains the mixture of a saccharide-based surfactant having a relatively large hydrophilic portion and a saccharide-based surfactant having a relatively small hydrophilic portion in an amount of 0.20 wt.% to 1.50 wt.% with respect to the total weight of the composition.~~

~~8.~~6 The cosmetic composition as claimed in claim 1, wherein the natural oil-soluble ingredient ~~includes at least one selected from the group consisting of~~ comprises:

a solid oil-soluble ingredient~~s~~ including a surfactant ~~having a melting temperature of 30°C or above and being in the solid state at the room temperature~~, said solid oil-soluble ingredient comprising a fat, a wax, a higher alcohol, a higher fatty acid, or a hydrocarbon, wherein the solid oil-soluble ingredient has a melting temperature of 30 ℃ or above and being in the solid state at the room temperature; ~~and~~ or

a liquid oil-soluble ingredient~~s~~ including an oil, an ester, or a hydrocarbon, wherein the liquid oil-soluble ingredient is in the liquid state at a room temperature.

~~9. The cosmetic composition as claimed in claim 1, wherein the cosmetic composition contains the natural oil-soluble ingredient in an amount of 5 wt.% to 15 wt.% with respect to the total weight of the composition.~~

~~10~~7. The cosmetic composition as claimed in claim 1, wherein the composition further comprises at least one ingredient selected from green tea polysaccharide, mushroom-derived yeast extract, and niacinamide.

~~11~~8. The cosmetic composition as claimed in claim ~~10~~7, wherein the composition contains the green tea polysaccharide and the mushroom-derived yeast extract each at an amount of 0.01 wt.% to 5.0 wt.% with respect to the total weight of the composition.

~~12~~9. The cosmetic composition as claimed in claim ~~10~~7, wherein the composition contains the niacinamide at an amount of 2 wt.% with respect to the total weight of the composition.

~~13~~10. The cosmetic composition as claimed in any one of claims 1 to ~~12~~9, wherein

the composition is for improving skin luster.

~~14~~11. The cosmetic composition as claimed in any one of claims ~~10~~ 7 to ~~12~~9, wherein the composition is for whitening the skin.

What is claimed is:

1. A cosmetic composition comprising a mixture of a saccharide-based surfactant having a relatively large hydrophilic portion and a saccharide-based surfactant having a relatively small hydrophilic portion; and a natural oil-soluble ingredient.

2. The cosmetic composition as claimed in claim 1, wherein the composition is an oil-in-water type composition.

3. The cosmetic composition as claimed in claim 1, wherein the composition has a viscosity of 1,000 to 4,000 cps.

4. The cosmetic composition as claimed in claim 1, wherein the saccharide-based surfactant having a relatively large hydrophilic portion includes at least one selected from the group consisting of polyglyceryl-3-methyl glucose distearate and inulin lauryl carbamate.

5. The cosmetic composition as claimed in claim 1, wherein the saccharide-based surfactant having a relatively small hydrophilic portion includes at least one selected from the

group consisting of sucrose fatty acid ester, cetearyl glucoside, arachidyl glucoside, and C12-20 alkylglucoside.

6. The cosmetic composition as claimed in claim 1, wherein the saccharide-based surfactant having a relatively small hydrophilic portion and the saccharide-based surfactant having a relatively large hydrophilic portion are used at a weight ratio of 0.4 to 2.5.

7. The cosmetic composition as claimed in claim 1, wherein the composition contains the mixture of a saccharide-based surfactant having a relatively large hydrophilic portion and a saccharide-based surfactant having a relatively small hydrophilic portion in an amount of 0.20 wt.% to 1.50 wt.% with respect to the total weight of the composition.

8. The cosmetic composition as claimed in claim 1, wherein the natural oil-soluble ingredient includes at least one selected from the group consisting of solid oil-soluble ingredients including a surfactant having a melting temperature of 30 °C or above and being in the solid state at the room temperature, fat, wax, higher alcohol, higher fatty acid, or hydrocarbon; and liquid oil-soluble ingredients including oil, ester, or hydrocarbon.

9. The cosmetic composition as claimed in claim 1, wherein the cosmetic composition contains the natural oil-soluble ingredient in an amount of 5 wt.% to 15 wt.% with respect to the total weight of the composition.

10. The cosmetic composition as claimed in claim 1, wherein the composition further comprises at least one selected from green tea polysaccharide, mushroom-derived yeast extract, and niacinamide.

11. The cosmetic composition as claimed in claim 10, wherein the composition contains the green tea polysaccharide and the mushroom-derived yeast extract each at an amount of 0.01 wt.% to 5.0 wt.% with respect to the total weight of the composition.

12. The cosmetic composition as claimed in claim 10, wherein the composition contains the niacinamide at an amount of 2 wt.% with respect to the total weight of the composition.

13. The cosmetic composition as claimed in any one of claims 1 to 12, wherein the composition is for improving skin luster.

14. The cosmetic composition as claimed in any one of claims 10 to 12, wherein the composition is for whitening the skin.

What is claimed is:

1. A cosmetic composition comprising a mixture of a first saccharide-based surfactant having a first hydrophilic portion and a second saccharide-based surfactant having a second hydrophilic portion, the first hydrophilic portion of the first saccharide-based surfactant being more hydrophilic than the second hydrophilic portion of the second saccharide-based surfactant; and a natural oil-soluble ingredient,

wherein the composition contains the mixture of the first saccharide-based surfactant and the second saccharide-based surfactant in an amount of 0.20 wt.% to 1.50 wt.% with respect to the total weight of the composition, and contains the natural oil-soluble ingredient in an amount of 5 wt.% to 15 wt.% with respect to the total weight of the composition, and

wherein a weight ratio of the second saccharide-based surfactant to the first saccharide-based surfactant is 0.4 to 2.5:1.

2. The cosmetic composition as claimed in claim 1, wherein the composition is an oil-in-water type composition.

3. The cosmetic composition as claimed in claim 1, wherein the composition has a viscosity of 1,000 to 4,000 cps.

4. The cosmetic composition as claimed in claim 1, wherein first saccharide-based surfactant includes at least one selected from the group consisting of polyglyceryl-3-methyl glucose distearate and inulin lauryl carbamate.

5. The cosmetic composition as claimed in claim 1, wherein the second saccharide-based surfactant includes at least one selected from the group consisting of sucrose fatty acid ester, cetearyl glucoside, arachidyl glucoside, and C12-20 alkylglucoside.

6 The cosmetic composition as claimed in claim 1, wherein the natural oil-soluble ingredient comprises:

a solid oil-soluble ingredient including a surfactant, said solid oil-soluble ingredient comprising a fat, a wax, a higher alcohol, a higher fatty acid, or a hydrocarbon, wherein the solid oil-soluble ingredient has a melting temperature of 30 ℃ or above

and being in the solid state at the room temperature; or
a liquid oil-soluble ingredient including an oil, an ester, or a hydrocarbon, wherein the liquid oil-soluble ingredient is in the liquid state at a room temperature.

7. The cosmetic composition as claimed in claim 1, wherein the composition further comprises at least one ingredient selected from green tea polysaccharide, mushroom-derived yeast extract, and niacinamide.

8. The cosmetic composition as claimed in claim 7, wherein the composition contains the green tea polysaccharide and the mushroom-derived yeast extract each at an amount of 0.01 wt.% to 5.0 wt.% with respect to the total weight of the composition.

9. The cosmetic composition as claimed in claim 7, wherein the composition contains the niacinamide at an amount of 2 wt.% with respect to the total weight of the composition.

10. The cosmetic composition as claimed in any one of claims 1 to 9, wherein the composition is for improving skin luster.

11. The cosmetic composition as claimed in any one of claims 7 to 9, wherein the composition is for whitening the skin.
