(54) **Title**: APPARATUS AND METHODS FOR SUPPORTING AN ELONGATED MEMBER

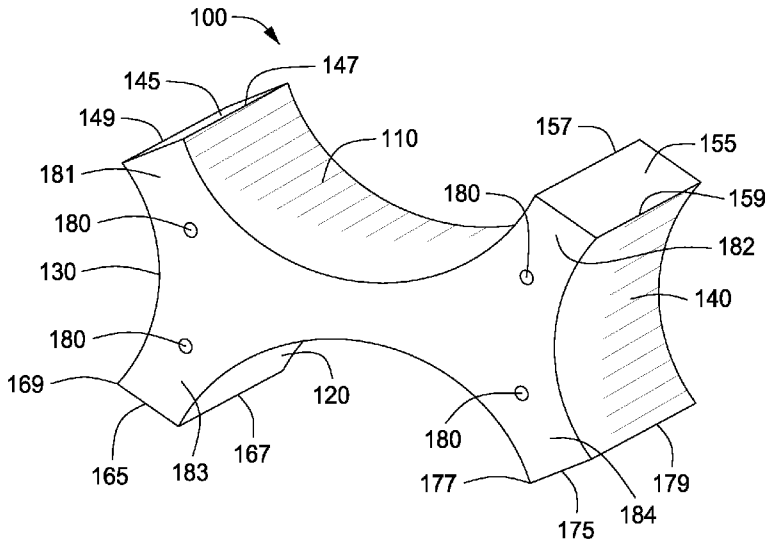

FIG. 2

(57) **Abstract**: Apparatus and methods for supporting one or more elongated members are provided. A support member for supporting one or more elongated members can include a body; at least four support arms extending from the body, and at least one curved surface disposed between the support arms. Each curved surface can be concave relative to a centerline of the body. At least one curved surface can have a length that is at least twice as long as at least one other curved surface.
