ABSTRACT OF THE DISCLOSURE

METHOD AND SYSTEM OF PROCESSING THE INQUIRY AND BOOKING PROCEDURES FOR CARRIAGE

A method for processing a carriage requirement of a customer, especially the inquiry and booking processes for carriage. Customers can inquire and book the carrier schedules via a server that provides the information of carrier schedules. In addition, shipping agents or forwarders can reply the carrier rates and related booking data to the customer via the server. These inquiry and booking records or transaction records are stored in the server.
