

ARTICLE TRANSPORT FACILITY

ABSTRACT OF THE DISCLOSURE

5 A transfer device 30 includes a holder 31 that holds an article, and a self-propelled cart 33 that supports the holder 31 and travels. The self-propelled cart 33 includes a wheel and a wheel drive source 34 that drives the wheel, and the self-propelled cart 33 travels along a traveling path T provided on an elevation unit 20 and a delivery device 50. The delivery device 50
10 includes a positioning portion that positions the elevation unit 20 while the elevation unit 20 is at a transfer height H2, and a delivery-side guide 55 that guides travel of the self-propelled cart 33 along the traveling path T. The elevation unit 20 includes an elevation-side guide 25 that guides travel of the self-propelled cart 33 along the traveling path T, and the elevation-side guide
15 25 is arranged so as to be continuous with the delivery-side guide 55 while the elevation unit 20 is positioned by the positioning portion.
