CLAIMS

1. Use of a hydroethanolic extract of *Garcinia mangostana* pericarp in the manufacture of a dermatological composition for treating alopecia, the treatment comprising promoting hair regrowth.
2. The use of claim 1, wherein the hydroethanolic extract is extracted with an ethanol/water mixture having an ethanol/water ratio of 9:1 to 7:3(v/v).
3. The use of any one of claims 1 or 2, wherein the dermatological composition comprises 0.001 to 5%, preferably 0.005 to 1%, of *Garcinia mangostana* extract, by weight of dry extract relative to the total weight of the composition.
4. The use of any one of claims 1 to 3, wherein the dermatological composition further comprises at least one dermatologically acceptable excipient.
5. The use of any one of claims 1 to 4, wherein the composition is intended for topical application.
6. The use of any one of claims 1 to 5, wherein the alopecia is selected from the group consisting of androgenetic alopecia, reactive alopecia, postmenopausal alopecia, and alopecia areata.
