HYDROPHILIC ELASTICALLY STRETCHABLE COMPOSITE SHEET

5 A hydrophilic elastically stretchable composite sheet
(1) composed of an elastically stretchable first sheet (3)
and an inelastically stretchable second sheet (2)
intermittently bonded to at least one surface of the first
sheet (3). At least one of the first sheet (3) and the second
10 sheet (2) contains hydrophilic material. The composite sheet
has a high sweat absorbability.

Refer to Fig. 1.
