

STRUCTURE FOR ATTACHING FRONT SKIRT OF PASSENGER CONVEYOR

ABSTRACT

A front skirt 26 that is arranged between a lower portion of a semi-circular end portion 38 of a balustrade 20 and an upper portion of a truss 12 is formed by a front skirt member 56. The front skirt member 56 is attached to an attachment member 48, which is provided to the upper portion of the truss 12, in a freely detachable manner.
