

WHAT IS CLAIMED IS:

1. A compound of Formula (I):

- 5 or a stereoisomer, a tautomer, a pharmaceutically acceptable salt thereof, wherein:

ring A is independently selected from  and  ;

ring B is independently selected from  and  ;

R^1 is independently selected from H and C_{1-4} alkyl;

R^2 is independently selected from F, Cl, CF_3 , CHF_2 , and $COOH$;

10 R^3 is independently selected from H, CHF_2 , CD_3 , CH_3 , and  ;

R^4 is independently selected from H and F; and

R^5 is independently selected from H, F, Cl, CH_3 , and OCH_3 .

2. A compound according to claim 1, wherein R^2 is independently selected
15 from F, Cl, CF_3 , and CHF_2 .

3. The compound of any one of claims 1 to 2, having Formula (II):

or a stereoisomer, a tautomer, a pharmaceutically acceptable salt thereof, wherein:

R¹ is C₁₋₄ alkyl;

5 R² is independently selected from F, Cl, CF₃, and CHF₂;

R³ is independently selected from CHF₂, CD₃, and CH₃;

R⁴ is H; and

R⁵ is independently selected from F and Cl.

- 10 4. The compound of any one of claims 1 to 3, having Formula (III):

or a stereoisomer, a tautomer, a pharmaceutically acceptable salt thereof, wherein:

R¹ is C₁₋₄ alkyl;

R² is independently selected from F, Cl, CF₃, and CHF₂;

15 R³ is independently selected from CHF₂, CD₃, and CH₃;

R⁴ is H; and

R⁵ is independently selected from F and Cl.

5. The compound of anyone of claims 1 to 4, having Formula (IV):

(IV)

or a stereoisomer, a tautomer, a pharmaceutically acceptable salt thereof, wherein:

R² is independently selected from F, Cl, CF₃, and CHF₂; and

5 R³ is independently selected from CHF₂, CD₃, and CH₃.

6. A compound of any one of claims 1 to 5, selected from the group consisting of:

10

7. A compound according to claim 1 having the structure:

8. A compound according to claim 1 having the structure:

or a stereoisomer, a tautomer, a pharmaceutically acceptable salt thereof.

- 5 9. A compound according to claim 1 having the structure:

or a stereoisomer, a tautomer, a pharmaceutically acceptable salt thereof.

10. A compound according to claim 1 having the structure:

10

or a stereoisomer, a tautomer, a pharmaceutically acceptable salt thereof.

11. A pharmaceutical composition comprising one or more compounds according to any one of claims 1-10 and a pharmaceutically acceptable carrier or diluent.

12. A compound or composition according to any one of claims 1-11, or a stereoisomer, a tautomer, or a pharmaceutically acceptable salt thereof for use as a medicament.

13. A compound or composition according to any one of claims 1-11, or a stereoisomer, a tautomer, or a pharmaceutically acceptable salt thereof for use in the treatment of a thromboembolic disorder.

14. A compound or a stereoisomer, a tautomer, or a pharmaceutically acceptable salt thereof or composition for use according to claim 13, wherein the thromboembolic disorder is selected from arterial cardiovascular thromboembolic disorders, venous cardiovascular thromboembolic disorders, and thromboembolic disorders in the chambers of the heart or in the peripheral circulation.

15. A compound or a stereoisomer, a tautomer, or a pharmaceutically acceptable salt thereof or composition for use according to claim 14 wherein the thromboembolic disorder is selected from unstable angina, an acute coronary syndrome, atrial fibrillation, myocardial infarction, transient ischemic attack, stroke, atherosclerosis, peripheral occlusive arterial disease, venous thrombosis, deep vein thrombosis, thrombophlebitis, arterial embolism, coronary arterial thrombosis, cerebral arterial thrombosis, cerebral embolism, kidney embolism, pulmonary embolism, and thrombosis resulting from medical implants, devices, or procedures in which blood is exposed to an artificial surface that promotes thrombosis.
