LIQUORICE EXTRACT ANTIMICROBIAL AND ANTI-INFLAMMATORY ISOLATES

ABSTRACT

The present invention provides, in one aspect, to products made from a novel and non-obvious supercritical CO_2 extract of the roots of *Glycyrrhiza sp.*, effective as an anti-inflammatory, anti-bacterial, anti-fungal and anti-adherent agent, including, but not limited to, products for oral care and body care. The present invention also provides, in another aspect, components isolated from the supercritical CO_2 extract of the roots of *Glycyrrhiza sp.*, effective as an anti-inflammatory, anti-bacterial, anti-fungal and anti-adherent agent, including, but not limited to, products for oral care and body care.
