

SUSPENSION SPRING FOR HERMETIC COMPRESSOR AND HERMETIC
COMPRESSOR HAVING SAME

ABSTRACT

A suspension spring (10) for a hermetic compressor and a hermetic
5 compressor (50) are provided. The suspension spring (10) includes a series of coils
(12). In an unassembled state, at least a portion of a first coil (12a) in the series of
coils (12) is at a greater angle of inclination relative to a transverse plane of the
suspension spring (10) than successive coils (12b) in the series of coils (12).
