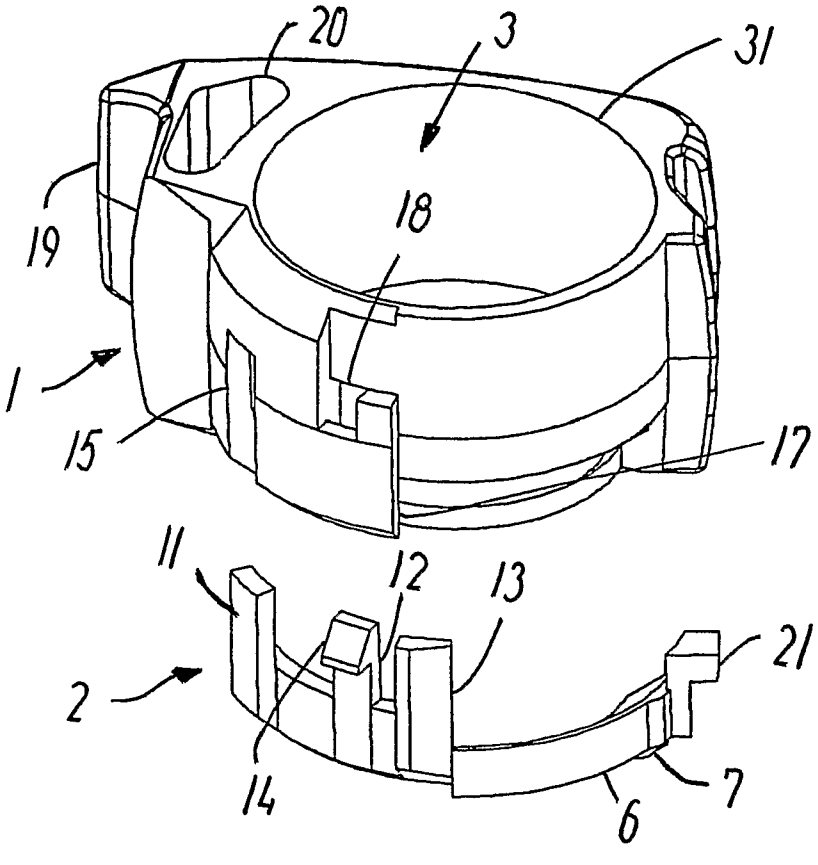
(54) Title: A BATTERY COMPARTMENT FOR A HEARING AID



(57) Abstract: A battery compartment for a hearing aid. The battery compartment comprises a first portion for accommodating a battery and a second portion, where the second portion comprises at least one retaining element for securing the position of the battery compartment with respect to a housing of said hearing aid. The first and second portions of the battery compartment are provided as first and second separate parts (1, 2) comprising releasable interlocking means (12, 14) for mutual engagement.
