(54) Title: COMPOSITIONS AND METHODS FOR TREATING AND PREVENTING BONE DISEASES USING TOCOTRIENOLS

(57) Abstract

This invention relates to the treatment and prevention of bone diseases using tocotrienols. Specifically, this invention relates to the use of and compositions comprising individual tocotrienols, mixtures of tocotrienols and mixtures of one or more tocotrienols with other bone-enhancing substances. The compositions and methods of this invention are particularly well suited for treating and preventing osteoporosis and other degenerative bone disorders, such as Paget's disease and Gaucher's disease.
