CELL DEATH-INDUCING DFFA-LIKE EFFECTOR B (CIDEB) IRNA COMPOSITIONS AND METHODS OF USE THEREOF

ABSTRACT

The invention relates to double-stranded ribonucleic acid (dsRNA) compositions targeting the CIDEB gene, as well as methods of inhibiting expression of CIDEB, and methods of treating subjects that would benefit from reduction in expression of CIDEB, such as subjects having a CIDEB-associated disease, disorder, or condition, using such dsRNA compositions.
