

ABSTRACT

The present invention a *Bifidobacterium longum* CBT
BG7 Bifidobacterium, which has an excellent growth
promoting effect and was internationally deposited with the
5 Korean Collection for Type Culture (KCTC) of the Korea
Research Institute of Bioscience and Biotechnology under
accession number KCTC 12200BP. The strain of the present
invention has a beneficial effect of promoting growth by
promoting the digestion of human milk oligosaccharides to
10 enhance immunity together with physical strength.
