WATCH CASE FOR AN ALARM WRIST WATCH

1 I refer to your letters asking for the EDB's comments on the various applications for registration of patents as above indicated.

7 JAN 1983

2 The Board feels that in line with our proposed policy to be more flexible and open and to support and protect new products and processes, we should allow the registration of all patents notwithstanding the fact that such applications are made outside the 3-year limit. It is felt that, in view of this policy, it may not be necessary to refer such applications to the Board for comments in future.

Yours faithfully
ECONOMIC DEVELOPMENT BOARD

SHIRLEY CHEN (MRS)
SECRETARY

ENC 6 * As requested, the documents are returned herewith.
