(54) Title: HARD DRIVE ERASER

(57) Abstract: Systems, apparatuses and methods for erasing hard drives. A system (100), which can be configured as a stand alone and portable apparatus, includes a control device (120) configured to support an erase module (140). The erase module (140) is configured to erase a hard drive (170) such that data erased from the hard drive (170) is forensically unrecoverable. The system (100) further includes a user interface (101) and at least one drive bay (110) configured to provide communication between a hard drive (170) and the control device (120).
