

ABSTRACT

METHODS AND APPARATUSES FOR DETERMINING FACE IMAGE QUALITY, ELECTRONIC DEVICES, AND COMPUTER STORAGE MEDIA

Embodiments of the present disclosure disclose methods and apparatuses for determining face image quality, electronic devices, and computer storage media. The method includes: obtaining pose angle information and/or size information of a face in an image; and obtaining quality information of the face in the image on the basis of the pose angle information and/or the size information of the face.
