

ABSTRACT

A casing (11) is provided with a partition portion (16) extending in a vertical direction so as to partition an outdoor space (O) and an accommodation chamber (S2) from each other.

- 5 The partition portion (16) has an opening (73, 80) for providing communication between the outdoor space (O) and the accommodation chamber (S2). An eaves portion (91) is provided above the opening (73, 80).
