(54) Title: TELEVISION SCHEDULE SYSTEM AND METHOD OF OPERATION

(57) Abstract

An improved television guide system (10). According to one embodiment of the invention, television guide information is provided that includes multiple occurrences of a single show. The guide system (10) of the present invention allows the user to identify a show and, thereafter, identify when the identified show will be played again (Fig. 3). Accordingly, the user may more easily select shows for viewing or recordation.
