(54) **Title**: DEVICE AND METHOD OF ENCHANCING PRODUCTION OF HYDROCARBONS

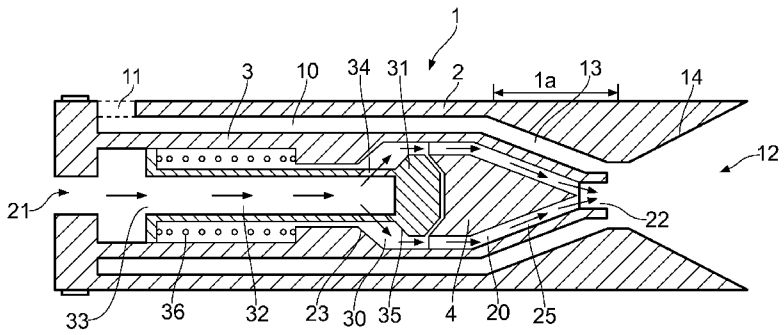

FIG. 1

(57) **Abstract**: A device and an associated method, of enhancing production of hydrocarbons from a wellbore by the use of a device, where the device is arranged in a side pocket mandrel. The method, and associated device, includes means for allowing a fraction of a main production flow to enter a first flow passage (10) in the device through an inlet (11) and to mix with the fluid from a second flow passage (20) in the device, before returning the mixed flow to the main production flow.
