(54) Title: ACCESSORY MEMBER FOR DISPENSERS OF ALKALI METALS

(57) Abstract: The present invention relates to an accessory member for alkali metals dispensers. Said member is a screen (30; 40; 60) of substantially tubular shape, which can be applied with an end thereof (34; 44; 64) to an alkali metals dispenser (10). The cross-section of said end is superimposable to a whole alkali metals emission zone (14) of said dispenser (10). The contact portion between said end (34; 44; 64) and said dispenser (10) is made with a low thermal conductivity material. Said screen (30; 40; 60) is provided with an internal surface having a high specific area.
