
Display an image creation page, the image creation page comprising an image generation option, a canvas area, and a layer display area, and the image generation option comprising: a text-to-image option and/or an image-to-image option
S110
Display, in response to a trigger operation on the image generation option, a first image in the canvas area, and displaying a layer where the first image is located in the layer display area, the first image being an image generated by an image generation model
