IMMUNOGENIC COMPOSITION

ABSTRACT

The present application relates to immunogenic compositions comprising Type 5 and/or 8 capsular polysaccharide or oligosaccharide from *S. aureus* having between 30-100% O- acetylation. Vaccines, methods of treatment using and processes to make an immunogenic composition comprising Type 5 and/or 8 capsular polysaccharides with 30-100% O- acetylation are also described.
